Body & Sub Header Styles						
Style	Weight	Desktop	Mobile	Line	Spacing	Color
Sub Header	Light	24px	20px	140%	0%	#3C3F44 (Dark Gray)
Body 18pt	Regular	18px	16px	140%	0%	#3C3F44 (Dark Gray)
Body 16pt	Regular	16px	14px	140%	0%	#3C3F44 (Dark Gray)
Body 14pt	Regular	14px	12px	140%	0%	#3C3F44 (Dark Gray)

Usage Notes

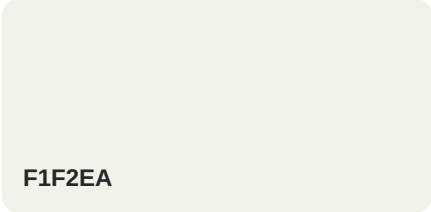

- Headers use 100% line-height with -2% letter-spacing for tight, impactful display.
- Labels use 1% letter-spacing for improved readability at small sizes.
- Sub headers and body text use 140% line-height for comfortable reading.
- Header color (#094A27) provides strong contrast against light backgrounds.
- Label color (#296A3C) differentiates labels from headers visually.
- Body color (#3C3F44) ensures readability without harsh contrast.

02 / Color Palette

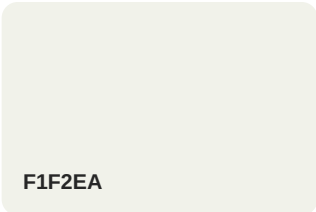

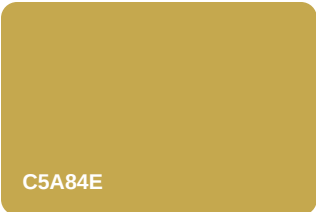

All colors tested for WCAG contrast compliance. Ratios measured against white text on color.

03 / Logo Usage

The McGill Hose & Coupling logo features a spiral hose coil icon alongside the "McGill HOSE & COUPLING" wordmark. Four approved versions below.

Primary Logo
Light backgrounds (#F1F2EA, #FFFFFF)

Reversed White | Dark Background
Dark backgrounds (#10312B, #094A27)

Reversed White | Brand Green
Green backgrounds (#296A3C)

Single Color | Dark Green
Single-ink printing, fax, embossing (#10312B)

Logo Guidelines

- | | |
|---------------------|--|
| Clear Space | Minimum clear space equal to the height of the 'M' in McGill on all sides. |
| Minimum Size | Never smaller than 1 inch (print) or 120px wide (digital). |
| Color Usage | Only use the four approved versions. Never alter logo colors. |
| Backgrounds | Primary on light. Reversed/white on dark or green backgrounds. |
| Don'ts | Never stretch, rotate, add effects, or place on busy backgrounds. |

04 / Certifications & Trust Signals

McGill's certifications, memberships, and partnerships are key trust signals. Present them consistently across all touchpoints, digital and print.

TIER 1 | CERTIFICATIONS

ISO 9001:2015 / AS9100D

Certified by TUV SUD America. International standards for quality management and aerospace supply chain. Demonstrates process control, continuous improvement, and product safety.

ITAR Compliant - 2026

International Traffic in Arms Regulations. Required for handling defense-related articles and services. Demonstrates compliance with U.S. export control requirements.

TIER 2 | MEMBERSHIPS & ASSOCIATIONS

NAHAD - Founding Member

Association for Hose & Accessories Distribution. McGill is a founding member, underscoring decades of industry leadership.

Hose Safety Institute - Designated

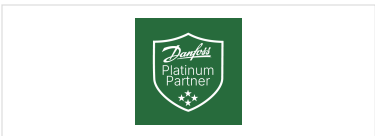

Dedicated to hose assembly safety standards and best practices. Signals commitment to safe fluid handling.

Industrial Distributor Co-op - Member

Industrial distribution industry association, connecting McGill to broader supply chain networks.

TIER 3 | AUTHORIZED PARTNERSHIPS

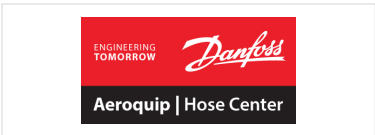

Danfoss Platinum Partner

Authorized distributor for Aeroquip hydraulic hose, fittings, and adapters.

Continental - Star Distributor

Industrial Hose Star Distributor. Recognized for safety, training, reliability, and assembly excellence.

Danfoss Aeroquip - Hose Center

Authorized Aeroquip Hose Center for hydraulic hose assemblies. Featured in hydraulic product sections and retail store locations.

05 / Trust Signal Placement

Strategic placement of trust signals on the ecommerce site to build customer confidence at key decision points in the buying journey.

Visual Hierarchy

Tier 1 (ISO, AS9100D) = largest, most prominent. Tier 2 (NAHAD, HSI) = standard.
Tier 3 (Partner logos) = supporting. Never mix tiers at the same visual weight.

Homepage Hero / Above the Fold

ISO 9001 + AS9100D badges in a trust bar below the hero. The #1 trust signal for industrial buyers. Include NAHAD founding member badge in the same row.

Impact: High First impression, sets credibility immediately

Product Detail Pages Below Product Specs

Show relevant certifications per product category. Aerospace products feature AS9100D prominently. Sanitary/PTFE products highlight FDA/3A compliance.

Impact: Critical This is where purchase decisions happen

Category Pages Sidebar or Sub-header

Partner badges (Aeroquip Platinum, Continental) near the top of category pages for those product lines. Reinforces authorized distributor status.

Impact: Medium Validates product authenticity

Footer (Global) Trust Bar

All Tier 1 and Tier 2 badges in a clean horizontal row. Persistent across every page.

Impact: Baseline Constant reassurance

About / Company Dedicated Section

Full presentation with descriptions, cert numbers, and download links for cert documents. The deep-dive for procurement teams.

Impact: High Procurement teams check here

Cart / Checkout Reassurance Strip

Small trust badges (ISO + AS9100D) near the CTA button. Reduces friction at the final decision point.

Impact: Critical Reduces cart abandonment

Footer Badge Strip | Single-Color Variants

Monochrome badges in #10312B (Dark Green) for footer trust bars, invoices, and low-color contexts.
